I must do a blood glucose test with my meter if I think the number doesn’t match how I feel.

The Sensor has to go on the back of my upper arm.

If I take insulin for a meal, I should not take any more insulin for 2 hours. I need to wait and watch.

I must do a blood glucose test with my meter when I see during the first 12 hours of wearing a Sensor.
**Warning**
The App should only be used to get glucose data from your Sensor. If the App is used to get glucose data from another person's Sensor, glucose data may get confused.

**Important!**
Do not take more than 500 mg of Vitamin C supplements per day. This may affect your Sensor readings. Some supplements like Airborne® and Emergen-C® contain more than 500 mg of Vitamin C.
