PHONE & OS COMPATIBILITY

We regularly test popular phones and operating systems (OS) to evaluate App compatibility, NFC scan performance, and Bluetooth connectivity.

Please check this guide before installing a new OS version on your phone or before using the App with a new phone.

Note: Refer to the diagram for the NFC scan location on your phone.

NFC LOCATION

Recommended phones and OS

Libre app (version 1.0)

OS	PHONES	NFC LOCATION

	Samsung Galaxy Note10+ 5G, S21 Ultra 5G, Z Flip3 5G, Z Flip4, Z Flip5, Z Fold5	3

We will update this guide as we test other phones and OS. This guide is your most up to date information and may be different from what is shown within the App. Contact Customer Service for more information on phones and OS other than those listed. Beta OS versions are not tested or supported. You cannot use the App with jailbroken and rooted devices.

Using an unsupported phone or OS may affect App security and functionality. You are responsible for the risks of using the App on an unsupported phone or OS.
