This guide will be updated as other devices and operating systems are evaluated. For devices and OS other than those listed, Abbott Diabetes Care has not evaluated compatibility. Jailbroken devices and beta OS versions are not evaluated or supported.

Please check that your mobile device and OS continues to be supported by the manufacturer. Use of an unsupported mobile device or OS version may affect App security and functionality. You are responsible for the risks associated with the use of the App on an unsupported mobile device or OS version.
